SURGICAL AUTHORIZATION

Date: _____

Client's Name: _____ Home Phone: _____

Pet's Name: _____ Cell Phone: _____

I am the owner or agent for the above stated animal and have the authority to execute this consent.
I hereby consent and authorize the performance of the following procedure(s):

I understand that during the performance of the foregoing procedure(s) unforeseen conditions may be revealed that necessitate an extension of the foregoing procedure(s) or different procedures(s) than those set forth above. Therefore, I hereby consent to and authorize the performance of such procedure(s) as are necessary in the exercise of the veterinarians' professional judgment. I understand that, except in the case of an emergency, authorization will be confirmed verbally by the owner or agent.

I have been advised as to the nature of the procedure(s) above stated and the risks involved. I understand that results cannot be guaranteed. I authorize life saving measures in the event of an anesthetic complication.
As the owner, or financially responsible party, I will pay for all costs associated with the above procedure(s). I agree to pay in full at the time of discharge.

I have read and understand this Authorization and consent

Signature of owner or agent _____ Date _____

Pre-Anesthetic Blood Tests

We make every attempt be certain your pet is safe. Blood testing prior to the administration of anesthesia is recommended. These test help us diagnosis unforeseen medical problems that could create complications with the effects or the anesthetic agents or response to surgical procedures in your pet.

My pet has had recent blood test which were reviewed by the veterinarian

I authorize pre-anesthetic blood test to be performed. I accept the associated additional expense.

I decline pre-anesthetic blood test. I understand that by declining, I may be increasing associated risks to my pet.

Microchip

We recommend permanently identifying you pet through the use of a Microchip .A microchip is a small transponder that is placed just under the skin through the use of a specially designed syringe. The chip carries an unalterable code number which will help identify your pet.

I authorize Microchip placement for my pet.

I decline Microchip placement for my pet.
